

MondlyWORKS

About Us

MondlyWORKS is the future of language learning. Based on Mondly, the award-winning language learning app with over 100 million users worldwide, MondlyWORKS is utilized by multinational corporations and SMEs, K-12 schools, universities, and governmental organizations from across the globe.

Mondly is the winner of the ["Germany's Best Online-Portal: Language Learning" award](#) and since 2021 has been integrated into the teaching curriculum of the Israeli Ministry of Education, making Mondly a staple in the classroom and remote environments.

Our Expertise

Our solutions have been fully developed by our in-house developers together with **international gamification experts, language teachers, and educational experts**. We are one of the most technologically advanced language learning apps on the market, investing considerable resources in research and development and being one of the first providers in education to develop virtual and augmented reality solutions.

Some of our most notable clients: The Australian Department of Defense, The Israeli Ministry of Education, Delta Airlines, Canon Medical Systems, Signant Health, Keller, FP Pigments, University of Eichstatt-Ingolstadt, University of Burgundy, Terre des Hommes, Qbic Hotels, and many more!

Why MondlyWORKS

- **41 languages** and over 1000 language pairs with every single license.
- **Dedicated content for various professions** (from shop assistants to medical professionals).
- **Advanced English content created by Oxford University.**

- Learning methodology that focuses on all aspects of language learning. **From vocabulary to grammar, sentence creation, and speaking.**
- 3 levels of difficulty, from A0 to B2 on the CEFR scale (absolute beginner to upper-intermediate).
- Access to an **admin dashboard** from where teachers can easily **track the progress of each user and manage the licenses** (from time spent in the app to the number of words & phrases learned, levels, and more).
- Option to reassign **each license to a new user for free**, without any restrictions.
- **Free access to Mondly Kids**, our language learning app for small children.
- **Free access to MondlyAR**, our complementary language learning module based on augmented reality.
- **Continuous updates** and new features.
- Available on **mobile devices** (Android & iOS), and **PC**.

New Features

-Mondly Hands-Free: Focusing solely on verbal interaction with the chatbot, Mondly Hands-Free enables its users to practice their accent and intonation like no other tool on the market. Simulating real-life conversations with native speakers is the perfect way to build up the much-needed confidence to actually speak the learned language and be understood.

***Custom Pricing for Dekalb**

No. Licenses	Price/license/year	Total/year
600	\$20	\$12,000
