21- 22 Wellness Plan: Virtual Option

Mission

At The Main Street Academy, all students will receive a challenging and enriching education from a dedicated and student-focused staff in partnership with highly-involved parents. Students will leave The Main Street Academy with high expectations of themselves as they prepare for further education and become contributing members of their diverse communities.

Health Data: Tools that Guide our Decision Making

Our approach to decision making is based on guidance and recommendations of local, state and national public health. It is intended to prioritize the safety and well-being of our students and staff as we start the 2021-22 school year. These recommendations also provide the opportunity for responsive planning to ensure our preparedness to address the changing nature of the COVID-19 pandemic.

CDC indicators and thresholds for risk of introduction and transmission of COVID-19 in schools

INDICATORS	Lowest risk of transmission in schools	Lower risk of transmission in schools	Moderate risk of transmission in schools	Higher risk of transmission in schools	Highest risk of transmission in schools
CORE INDICATORS					
Number of new cases per 100,000 persons within the last 14 days*	<5	5 to <20	20 to <50	50 to ≤ 200	>200
Percentage of RT-PCR tests that are positive during the last 14 days**	<3%	3% to <5%	5% to <8%	8% to ≤ 10%	>10%
Ability of the school to implement 5 key mitigation strategies: <ul style="list-style-type: none"> Consistent and correct use of masks Social distancing to the largest extent possible Hand hygiene and respiratory etiquette Cleaning and disinfection Contact tracing in collaboration with local health department Schools should adopt the additional mitigation measures outlined below to the extent possible, practical and feasible.	Implemented all 5 strategies correctly and consistently	Implemented all 5 strategies correctly but inconsistently	Implemented 3-4 strategies correctly and consistently	Implemented 1-2 strategies correctly and consistently	Implemented no strategies
SECONDARY INDICATORS					
Percent change in new cases per 100,000 population during the last 7 days compared with the previous 7 days (negative values indicate improving trends)	<-10%	-10% to <-5%	-5% to <0%	0% to ≤ 10%	>10%
Percentage of hospital inpatient beds in the community that are occupied***	<80%	<80%	80 to 90%	>90%	>90%

INDICATORS	Lowest risk of transmission in schools	Lower risk of transmission in schools	Moderate risk of transmission in schools	Higher risk of transmission in schools	Highest risk of transmission in schools
Percentage of intensive care unit beds in the community that are occupied***	<80%	<80%	80 to 90%	>90%	>90%
Percentage of hospital inpatient beds in the community that are occupied by patients with COVID-19***	<5%	5% to <10%	10% to 15%	>15%	>15%
Existence of localized community/public setting COVID-19 outbreak*****	No	No	Yes	Yes	Yes

TMSA Triage Chart

Primary vs Secondary vs Tertiary Exposure

What is Direct Contact?

1. Within 6 feet of someone who has tested positive for COVID-19 for a cumulative of 15 minutes over a 24-hour period or longer, from 2 days prior to onset of symptoms until the end of home isolation.
2. You provided care at home to someone who tested positive for COVID-19.
3. You had direct physical contact with someone who is COVID-19 positive or suspected positive.
4. You shared eating or drinking utensils.
5. They sneezed, coughed, or somehow got respiratory droplets on you.

What is Primary Exposure?

1. Primary Exposure (Proximate) is defined as "being in the same enclosed environment such as a classroom, office, or gatherings but greater than 6 ft from a person displaying symptoms of COVID-19 or someone who has tested positive for COVID-19"

The word "quarantine" as used in the New York Dept of Health model is a recommendation to prevent the spread of COVID-19. For our purposes, "quarantine" means "not eligible to return to School" for the 14-day period, inclusive of weekends.

Mandatory quarantine is required for a person who "has been in close contact (6 ft.) with someone who is positive, but is not displaying symptoms for COVID-19; or person has traveled to China, Iran, Japan, South Korea or Italy and is displaying symptoms of COVID-19"

Precautionary quarantine is required for a person who "meets one or more of the following criteria: (i) has traveled to China, Iran, Japan, South Korea or Italy while COVID-19 was prevalent, but is not displaying symptoms; or (ii) is known to have had a proximate exposure to a positive person but has not had direct contact with a positive person and is not displaying symptoms"

TMSA Triage Chart

PRIMARY	PRIMARY EXPOSURE	SECONDARY EXPOSURE	TERTIARY EXPOSURE
Person is diagnosed with COVID-19 or is considered a presumptive case (symptoms).	Person has direct contact with someone who has tested positive for COVID-19 or is considered a presumptive case.	Person is in direct contact with a Primary Exposure person.	Person is in direct contact with a Secondary Exposure.
<u>ISOLATE FROM OTHERS</u>	<u>QUARANTINE</u>	<u>NO QUARANTINE</u>	<u>NO ACTION</u>
<ul style="list-style-type: none"> Follow health professional recommendations. ISOLATE UNTIL 10 days from onset of symptoms (or when tested positive) AND no fever for 24 hours and symptoms improving. 	<ul style="list-style-type: none"> Begin quarantine immediately for 14 days. Self-monitor for symptoms or fever. Contact your physician regarding getting tested. <p>If you test positive, then follow PRIMARY Protocol.</p>	<ul style="list-style-type: none"> Self-monitor for fever or symptoms. IF PRIMARY CONTACT tests positive or diagnosed as presumptive case, follow PRIMARY EXPOSURE Protocol. 	No action needed unless you move to SECONDARY EXPOSURE Protocol.
<u>IDENTIFY/NOTIFY</u>	<u>IDENTIFY/NOTIFY</u>	<u>IDENTIFY/NOTIFY</u>	<u>IDENTIFY/NOTIFY</u>
<ul style="list-style-type: none"> Notify all persons you have been in contact with for 48 hours prior to onset of symptoms or positive test. 	No need to notify others unless you develop symptoms, in which case follow instructions in left most "PRIMARY" column.	Keep communication open, practice social distancing, wear a mask and use frequent and thorough hand hygiene	Keep communication open, practice social distancing, wear a mask and use frequent and thorough hand hygiene

Disclaimer - This model, along with the local and State Health Department and CDC, will assist us in our response. As there are numerous variations to any COVID-19 illness, we may deviate from this framework based on guidance from health officials.

This Response Strategy is based on data available at this time. If the situation or recommendations change, we will change our approach accordingly.

Updated Guidance COVID 19 Reporting

Use portals to report pending tests, positive test results, and direct exposures outside of FCS.

If you are awaiting test results, have a negative test, and/or are asymptomatic, you may continue to report to work/school with a mask.

If you are symptomatic or have a positive test, you are not to report to work/school.

FCS will only send notifications for direct contact exposures at FCS facilities.

INTERIM GUIDANCE AS OF JUNE 2, 2021

CDC Mitigation Toolkit

K-12 Schools COVID-19 Mitigation Toolkit

This **K-12 Schools COVID-19 Mitigation Toolkit** is designed for public health officials, K-12 administrators, school district officials, and occupational safety and health (OSH) professionals to assess hazards and implement mitigation strategies to reduce the spread of Coronavirus Disease (COVID-19) in schools. To protect students, teachers and staff, and the broader community, schools should consider implementing several of the recommended strategies, which will encourage behaviors that reduce the spread of COVID-19.

This toolkit is based on [Operating Schools During COVID-19: CDC's Considerations](#) and [Strategies for Protecting K-12 School Staff from COVID-19](#).

This toolkit includes the following materials:

Toolkit Instructions introduce public health officials, K-12 administrators, school district officials, and OSH professionals to the content of the toolkit and explain how to use the materials

At-A-Glance: Mitigation Strategies provide a quick guide for key mitigation strategies based on the evaluation of hazards

cdc.gov/coronavirus

Update:

Categories for 14-Day Case Rates

*The DPH uses the descriptors below to designate **14-Day Case Rate Category**, commonly referred to as the level of community transmission.*

- High: >100 cases/100K
- Moderately high: >50-100 cases/100K
- Moderate: >10-50 cases/100K
- Low: >0-10 cases/100K
- Less than 5 cases reported, rate not calculated

Closure decisions will be made at the lowest level possible (classroom, grade level, team, etc.) to prevent the disruption of face-to-face instruction, and will be based upon guidance and data from partnering public health agencies.		

Notification

COVID Strategy Summary

- TMSA will use the GaDPH and CDC Guidance for K-12 Schools for safety protocols and procedures
- Employees adhere to the FCS Mandatory Procedures and the Recommended Health & Safety Procedures (listed below)
- Masks enforcement will be in effect for all staff, students and visitor.
- Plastic Partitions will be available for all students in class and during lunch.
- Mask breaks will be allowed under supervision of staff and outdoor classroom activities will be encouraged as supported in the class lesson plan.
- Students and staff will adhere to the 3-6 feet physical (social) distance between themselves and other to the extent as possible.
- Sports Activities will be governed by Department of Parks and Recreation, FCS Guidelines for Extracurricular Activities.
- Hygienic practices of frequent hand washing, covering mouth when coughing or sneezing, and sanitizing will be encouraged.
- TMSA's instructional model will be teaching face-to-face beginning August 03, 2021 (first day of school)

TMSA/FCS Mandatory Procedures

COVID-19 Reporting

- 1.All TMSA staff and students are required to report **(1)** a confirmed positive case of COVID-19 **(2)** a pending COVID-19 test result (*regardless of the reason for testing*) and **(3)** a direct contact with person who is COVID-19 positive.
- 2.TMSA employees must use the **Employee Reporting Portal** (*under development; link/instructions coming soon*) to make the above COVID-19 report.
- 3.TMSA students/parents must use the **Parent Reporting Portal** to make the above COVID-19 report.
- 4.Reporting staff and students must wait for further guidance from the FCS Health Services Team, HR, or public health officials after submitting a report; do not report to work or school.
- 5.Employees are not to report to work if they feel ill or have symptoms related to COVID-19. Employees who knowingly report to work while exhibiting COVID-19 like symptoms could face District disciplinary action.
- 6.TMSA and or The FCS COVID-19 Response Team will case investigate all reports in consultation with public health officials. Staff and students are required to cooperate with response team/public health department nurses and respond truthfully to all questions.
- 7.All newly hired employees must report their vaccination status via the TMSA Vaccination Survey when requested by HR only. **If you have not completed the survey, please do so now.** Existing unvaccinated employees whose status has changed to vaccination may update such by retaking the survey.

TMSA/FCS Mandatory Procedures

COVID-19 Quarantine

- 1.All staff and students who meet isolation/quarantine criteria must adhere to the district's 10-day quarantine directive. Individuals exhibiting symptoms while at work/school will be directed to leave or isolated until they can be picked-up.
- 2.Quarantined employees will use their **personal sick/personal/vacation leave quota** during their absence from work. Employees with no leave quota will be unpaid.
- 3.Staff and students who have been fully vaccinated (*14 days since the second shot in a 2-dose series or the single dose of the J&J vaccine*) and symptom-free do not have to quarantine. Proof of vaccination will be needed.
- 4.Staff and students who have tested positive for COVID-19 within the past 3 months, fully recovered, and symptom-free do not have to quarantine. Proof of COVID-19 diagnosis will be needed.

Recommended Health & Safety Precautions

- 1.FCS strongly encourages **ALL EMPLOYEES** and students (12 years and older) to get **vaccinated** against the COVID-19 virus. **By being fully vaccinated, employees can avoid having to quarantine (due to direct contract) and using their personal/sick/vacation leave quota.** Per the CDC, vaccination is the leading public health measure for preventing COVID-19 infection. The following is a link to DPH on COVID-19 Testing and Vaccine information: [COVID-19 Testing in Georgia | Georgia Department of Public Health](#) and [COVID Vaccine | Georgia Department of Public Health](#).
- 2.**Mask wearing** remains optional for FCS students and staff, except on FCS school buses. If one is not fully vaccinated, wearing a mask/face covering in indoor public places is recommended.
- 3.Students and staff should continue to keep a **physical (social) distance** of 3-6 feet between themselves and others to the extent possible.
- 4.Staff and students should **wash their hands frequently** and cover their mouth/nose when coughing and/or sneezing.

Recommended Health and Safety Precaution (Cont.)

- 5. High touch areas and personal workspaces should be **cleaned and disinfected** frequently.
- 6. District facilities and schools should **limit non-essential visitors, volunteers, and activities** involving external groups or organizations with people who are not fully vaccinated. All school/facility visitors must complete a wellness check.
- 7. Employees should limit **non-essential meetings/staff gatherings** and use **MS Teams** when possible/work conducive.
- 8. All personnel should reference the CDC website for ongoing information regarding COVID-19, particularly in the K-12 environment(s). [Guidance for COVID-19 Prevention in K-12 Schools | CDC](#).

Quarantine Matrix

- Classes with 1 positive case will quarantine for a 10 day period from last day of exposure to a positive case.
- Quarantined classes will have virtual learning with their teachers according to the student's normal schedule.
- It is recommended that students and staff test 3-5 days after a positive exposure.

TMSA Survey

733 Respondents

Do you intend for your TMSA student to take advantage of standard, continued face-to-face instruction or virtual intruction?

Answer Choices	Responses	
Face-to-face	69.85%	512

Time	Class/Activity
7:45 AM	Homeroom – Morning Announcements
8:00 – 9:30 AM	Specials
9:45 – 10:45 AM	Core 1
11:00 – 11:30 AM	Leader in Me/SEL
11:30 – 12:30 PM	School-wide Lunch & Recess
12:40 – 1:40 PM	Flexible Grouping
2:00 – 3:30 PM	Core 2

Implementation

Safety Precautions

- Employees, students and visitors are required to wear Mask
- Disinfecting between Face-to-Face appointments
- Social distancing standards (3 Ft. / 6 Ft.)
- Desk shields will be provided for every class and student.

Consistent Schedules

- 7:45 AM – 3:30 PM Daily
- Monday – Friday | Face-to-Face

Car Line

Parents will follow the current car line directions for drop-off and pick-up

Before/After Care

- Before & After School Program will resume the first day students return to campus

Food*

- Breakfast and lunch provided at no charge
- Students will wash/sanitize their hands before and after mask removal

Additional COVID-19 Safety Procedures

- We ask that all families screen their children before dropping them off at school.
- 6 feet markers will be placed on the floor around the building and outside of the building for our students to learn appropriate distance and navigation of the hallways.
- All students, faculty and staff must wear face masks during the day. Face shields will not be accepted as sole protection but can be worn secondary protection.
- Students will use a seating chart in class/pod. Seating charts will remain the same.
- Hand sanitizer stations are in numerous places around the building and students will be reminded to use them as often as possible.
- Classrooms, restrooms, and all high touch areas will be disinfected throughout the day.
- Disinfectant spray and/or wipes will be provided for every classroom on campus.

Car Line Procedures

- Parents will follow the current car line directions for drop-off and pick-up.
- Dismissal will occur in blocks of 10 families (car line number) at a time to avoid crowding.
- Parents will not be allowed to walk children into the building unless authorized.

Morning Arrival Procedures

- We will open our doors at 7:30 AM. Remember, for student safety, do **not** drop off early.
- To ensure everyone's safety, parents will not be able to leave their cars when dropping off.
- Staff will be strategically placed outside and around the building to welcome students and escort them directly to their destination.
- Due to safety protocols, parents are not able to walk their children to class.
- Alcohol-based hand sanitizer will be available at all entrances to the building as students will need to sanitize their hands as they enter.
- Grab-and-go breakfast will be served at 7:45 AM.

Cafeteria / Lunch Procedures

- Hand sanitizing stations will be at the entrance and exit to the cafeteria.
- Students must wear their masks in line and store them away safely when they are eating.
- All tables in the cafeteria will be labeled with seats spaced appropriately apart.
- All meals will be rung up using barcodes or name recognition for each student.
- Students need to be able to readily share their first and last name when asked.
- Students will communicate with the cafeteria servers their selections so that food items can be placed on the tray.
- Custodial staff will disinfect cafeteria tables between groups.

Classroom Procedures

- Every classroom has a hand sanitizing station or liquid for student and staff use.
- Students will be referred to the nurse if symptoms are present for any illness.
- Teachers will keep classroom doors open to improve circulation in the building.
- Students will have assigned desks in the classroom that are apart and near a plug to ensure their device has power.
- Supplies will not be shared.
- Plastic shields will be placed in every classroom for teachers to safely host small group instruction.

Hallway Movement Procedures

- Every hallway has two or more hand sanitizing stations for student and staff use.
- Students will follow the normal right side of hallway flow of traffic.
- Students will physical (socially) distance at 6 Ft while walking in the hallway.

Health Services Procedures

- Department of Public Health will be contacted if staff or a student is diagnosed with a positive COVID-19 test.
- TMSA will notify all employees, students and families if a lab-confirmed COVID-19 case is identified on campus. Anyone who had close contact with the affected individual will receive individual notification. A close contact is defined as any individual who was within six (6) feet of an infected person for at least 15 minutes.
- Due to privacy requirements, TMSA will not identify any individual who tests positive for COVID-19.
- If a student develops COVID-19 symptoms on campus, he/she will be escorted to the school clinic and remain in the isolation room until a parent arrives within an hour.
- Check in with your child each morning for signs of illness. If your child has a temperature of 100.4 degrees or higher prior to use of fever reducing medication, sore throat or other signs of illness, like a cough, diarrhea, severe headache, vomiting, or body aches, he/she should not go to school. Contact your family physician and notify Nurse Jackson at TMSA.
- If your child has had close contact to a COVID-19 case, he/she should not go to school.
- All families will follow the Self-Screen Guidelines prior to reporting to school each morning.

Health Services Procedures

- If your child has any symptoms listed below, please keep your child home and contact your family physician.

Student Health Self-Screener

**** Please complete this screener before sending your kiddo to school. ****

Assess your child for any of the following.

- ☐ Cough
- ☐ Shortness of breath or difficulty breathing
- ☐ Feeling feverish or have a measured temperature greater than or equal to 100.0 degrees Fahrenheit
- ☐ Body aches or Muscle pain
- ☐ Chills
- ☐ Headache
- ☐ Loss of taste or smell
- ☐ Sore throat
- ☐ Congestion or runny nose
- ☐ Nausea or vomiting
- ☐ Diarrhea

If any of these symptoms are present, consider staying home, continue to monitor symptoms and let the school and your child's teacher know.

Dismissal Procedures

- Sanitizer stations are located at each exit and students will be asked to sanitize before they leave.
- Parents picking up in the car rider line must remain in their cars during dismissal.
- All parents will receive a numbered placard to hang on their rearview mirror.
- Parent pick-up students will be called from their classrooms to the dismissal area in the rear of the building.
- After School Program students will remain in their classrooms until the ASP teacher arrives to escort to a designated area (i.e. cafeteria).

Additional Information

CLOSED CAMPUS UNTIL FURTHER NOTICE

We will remain a closed campus until we feel it is safe to welcome visitors back.

STUDENTS ON CAMPUS WILL GO TO RECESS AND HAVE MASK BREAK PERIODS

Students will use hand sanitizer or wash hands before and after recess.

Additional Information

STUDENTS NEED TO BRING A REUSABLE WATER BOTTLE EVERY DAY

Please clearly label your child's water bottle, fill it with water, and send it with your child every day. Water fountains will only be available to fill water bottles.

RESTROOMS USE

Restrooms inside of classrooms and hallways will be used. Students will wash their hands before and after restroom use. Students will use restrooms in a socially distant manner.

Additional Information

DEVICES AND HEADPHONES

All students returning to campus must bring their TMSA device with power cord and headphones.

UNIFORMS

Students are required to wear our school uniform during Face-to-Face learning.
